www.github.com/MLuebbers

I am currently a student at Brown University studying computer science and music, focusing in computer systems and multimedia & electronic music experimentation with additional course-work in linguistics and visual arts. I'm drawn to unexpected glitches, and simple, sleek interfaces for creating art. In my spare time I am an avid long distance-runner on the Brown University club XC team, a self-taught musician, and an editor of Brown's local music blog, B-SIDE.

Education

Brown University Class of 2020
Providence, RI

3.8 GPA
BA in Computer Science & Music Theory

Computer Systems, Web Apps, Algorithms and Data Structures, Recording Studio, Historical Linguisitics, Deep Learning
